"There's a girl
I'd like to meet"

"I've been noticing all evening how pleasant and charming she is to everyone. I'm told her name is Betty, and she works for the telephone company. Will you introduce me?"

Yes, Betty, through day-to-day training on her telephone job, has gained a great deal of poise and confidence—real assets to an attractive, winning personality.

When she started her job, Betty had no experience in telephone work.

But she was trained with other beginners by Michigan Bell's friendly, understanding supervisors. Today Betty's proud of her work; enjoys a fine salary, regular wage increases, and many new friends.

What more could any girl ask in a job? Why not get in touch with us now? We'll be happy to tell you more about the variety of interesting telephone jobs from which you can choose. We'll be looking for you!

WAY TO BETTER LIVING

Learning provides a key to the spiritual and material riches of the world. Through learning, science and industry have combined to bring new convenience, new benefits and a new measure of leisure into our lives.

In this evolution electricity has played a leading part.

In the years to come you will live still better electrically for greater things are in store. But it will take ever higher standards of learning to win them.

Good luck to you in helping to make the dreams of today the realities of tomorrow.
