**ACTIVITIES**

Here you see displayed the product of those kings of the road, the Class of '86. They themselves have said it, It's OK to kick but not for sixty years. In second place, they have no kick coming, but plenty left. Wait 'till next year.

What could be more natural for freshmen to say than what they have said here. The world will little note what they did here but it had better not forget what they said here "And still growing!" One of these days . . .

## HOMECOMING

Like they say, it was in the cards. Sooner or later somebody was going to deal a straight — 85, 86, 87, 88. This was the year and as you can see the ace floatmakers, formerly No. 2, have now become No. 1.

Here you see displayed the production of the Class of '87 whose present condition is obvious, is it not? But in time to come they will know that diamonds are . . . hard carbon.
